

# ST NEOTS CERTIFIED FARMERS' MARKET CORE RULES

FARMA Licence Number – FM8714

- St Neots Certified Farmers' Market gives priority to local producers.

**Note:** The FARMA standard definition of 'local' is 30 miles for most markets, 50 for urban and coastal markets or areas of low farming density such as hill farming country. This definition is different from the maximum distance a producer may travel.

- We define local as 30 miles from St Neots. If no local alternative is readily available then producers within a 50 mile radius may be considered.
- The majority of producers attending St Neots Certified Farmers' Market will come from within this area.
- All of the produce on offer will have been grown, raised, caught or processed (using local ingredients) by the stallholder.
- The producer or someone involved in production will be present at the stall and able to answer questions about the produce on offer, for example – the methods of production, or the ingredients.
- The full rules and more general information are available on request from the Town Centre Manager's Office and producers – please ask questions.

**More Information:** Kevin Matthews, Operations Manager, St Neots Town Council, The Priory, St Neots, PE19 2BH.
